Independent Auditor's Report

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Folds of Honor Foundation, which comprise the consolidated statement of financial position as of December 31, 2016 and 2015, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Folds of Honor Foundation as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Principal Activity and Significant Accounting Policies

Organization

Folds of Honor Foundation (the Foundation) is a nonprofit organization established in May 2007 to provide financial assistance for the education of spouses and dependent children of service men/women who are either killed or permanently disabled while serving and defending our great nation. As of December 31, 2016, the Foundation has awarded over 15,000 scholarships to help defray educational expenses, including tuition and fees, books, instructional supplies and equipment, and room and board.

Principals of Consolidation

The consolidated financial statements include the accounts of the Folds of Honor Foundation, FHF Honor Cottage, LLC (the Honor Cottage), and the Patriot Cottage, LLC, because the Foundation has both control and economic interests in the cottages. All significant intercompany accounts have been eliminated on consolidation. Unless otherwise noted, these consolidated entities are hereinafter referred to as “Folds of Honor Foundation”.

Cash and Cash Equivalents

The Foundation considers all cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents.

Receivables and Credit Policies

Accounts receivable consist primarily of noninterest-bearing amounts due for cottage rentals. Management determines the allowance for uncollectable accounts receivable based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Accounts receivable are written off when deemed uncollectable. At December 31, 2016 and 2015, no allowance was considered necessary.

Promises to Give

Unconditional promises to give expected to be collected within one year are recorded at net realizable value. Unconditional promises to give expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the statement of activities. Management determines the allowance for uncollectable promises to give based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Promises to give are written off when deemed uncollectable. At December 31, 2016 and 2015, no allowance was considered necessary.

Property and Equipment

Property and equipment additions over \$1,000 are recorded at cost, or if donated, at fair value on the date of donation. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets ranging from three to thirty-nine years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related depreciation or amortization are removed from the accounts, and any remaining gain or loss is included in the statement of activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed currently.

The Foundation reviews the carrying values of property and equipment for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment during the years ended December 31, 2016 and 2015.

Beneficial Interest in Assets Held by Community Foundation

The Foundation established a reserve endowment fund (the Fund) under Tulsa Community Foundation's (TCF) Non-profit Preservation Endowment Challenge Grant program and named itself beneficiary. The Foundation granted variance power to TCF which allows TCF to modify any condition or restriction on its distributions for any specified charitable purpose or to any specified organization if, in the sole judgment of TCF's Board of Directors, such restriction or condition becomes unnecessary, incapable of fulfillment, or inconsistent with the charitable needs of the community. The Fund is held and invested by TCF for the benefit of the Foundation, and is reported at fair value in the statement of financial position, with trust distributions and changes in fair value recognized in the statement of activities.

Interest in Chapters

In the past few years, several chapters have been established to raise money for the benefit of the Foundation. Since the Foundation has influence over and an ongoing economic interest in its chapters, the Foundation has recorded an interest in the net assets of the various chapters. Changes in the net assets of the chapters are recorded in the Foundation's statement of activities. Distributions received from the chapters are recorded as reductions in the interest in the net assets of chapters, and are generally used for scholarships. Since the Foundation has limited influence over the amount and timing of distributions and the chapters may impose additional restrictions on certain contributions made to chapters by donors, the net assets of chapters are reflected as temporarily restricted until the distributions are made to the Foundation.

Investments

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the statement of financial position. Net investment gain (loss) is reported in the statement of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less investment management and custodial fees.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets available for use in general operations.

Temporarily Restricted Net Assets – Net assets subject to donor restrictions that may or will be met by expenditures or actions of the Foundation and/or the passage of time, and certain income earned on permanently restricted net assets that has not yet been appropriated for expenditure by the Foundation's Board of Directors.

The Foundation reports contributions restricted by donors as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Revenue and Revenue Recognition

Revenue is recognized when earned. Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met.

Advance payments for Cottage rental are recorded as deferred revenue when received.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to the Foundation's program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. Contributed goods are recorded at fair value at the date of donation. The Foundation records donated professional services at the respective fair values of the services received.

Advertising Costs

Advertising costs are expensed as incurred. For the years ended December 31, 2016 and 2015, such costs approximated \$220,000 and \$1,050,000, respectively, including approximately \$167,000 and \$412,000, respectively, of donated advertising.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the statements of activities. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Foundation is organized as an Oklahoma nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as organizations described in Section 501(c)(3), qualify for the charitable contribution deduction under Section 170(b)(1)(A)(vi) and (viii), and have been determined not to be a private foundation under Sections 509(a)(1) and (3), respectively. The entity is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the entity is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purposes. The entity has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

The entity believes that it has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The entity would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those differences could be material.

Financial Instruments and Credit Risk

The Foundation manages deposit concentration risk by placing cash, money market accounts, and certificates of deposit with financial institutions believed by management to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Foundation has not experienced losses in any of these accounts. Credit risk associated with accounts receivable and promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from individuals and foundations supportive of the Foundation's mission. Investments are made by diversified investment managers whose performance is monitored by management and the Investment Committee of the Board of Directors. Although the fair values of investments are subject to fluctuation on a year-to-year basis, management and the Investment Committee believe that the investment policies and guidelines are prudent for the long-term welfare of the Foundation.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying financial statements to maintain consistency between periods presented. The reclassifications had no impact on net income or stockholders' equity.

Subsequent Events

The Foundation has evaluated subsequent events through August 8, 2017, the date the financial statements were available to be issued.

Note 2 - Fair Value Measurements and Disclosures

Certain assets and liabilities are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Foundation can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, the Foundation develops inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the Foundation's assessment of the quality, risk or liquidity profile of the asset or liability.

A portion of the Foundation's investment assets are classified within Level 1 because they are comprised of open-end mutual funds with readily determinable fair values based on daily redemption values. The fair value of the Foundation's beneficial interest in assets held by Community Foundation is based on the fair value of the underlying fund investments as reported by Community Foundation. These are considered to be Level 3 measurements.

Note 4 - Promises to Give

Unconditional promises to give are estimated to be collected as follows at December 31, 2016 and 2015:

	2016	2015
Within one year	\$ 1,610,571	\$ 64,573
In one to five years	60,000	70,000
	1,670,571	134,573
Less discount to net present value	-	-
	\$ 1,670,571	\$ 134,573

At December 31, 2016, one donor accounted for 82% of total promises to give. The Foundation recognizes promises to give at their estimated carrying value at the time of donation. In subsequent years, the promises to give are recorded at the net present value of expected future cash flows. Carrying value is determined by calculating the present value of the estimated future cash flows. The discount rate used in determining the net present value of promises to give was five percent.

Note 5 - Property and Equipment

Property and equipment consists of the following at December 31, 2016 and 2015:

	2016	2015
